## McIntyre Writes Grand Canon

The Ledger is in receipt of the sixth series of letters being contributed by J. S. McIntyre, who is traveling in Arizona and other western and south western States. The letter follows: Col. R. M. White,

We spent four days last week seeing the Grand Canyon of Arizona. Have you seen it? Then I advise you to beg. borrow or steal enough money to again. It is certainly one of the most noted and distinctive scenic atures of North America. For its vastness, wondrous coloring, profound abysses

Arizona has frequently been referred to as the "Wonderland" because it is a land full of wonders. But wonders of wonders is this, for none of the south rim of the Canyon for a dis-Canyon. For twenty years I have wanted to see it and now that I have Gorge of Colorado, have taken the and incomprehensable freak of nature.

actually struck dumb with awe and astonishment. Do you recall the senserving the movement of large bodies of well drilled men, or when reading canyon and I could sit on its summit and weeks, and then begin and dream

ests, while the canyon lies immediate- mometer coming up, and as one comes ly to the north. The hotel stands on up in the winter time he meets the an elevation of seven thousand feet thermometer gong down. and is reached by a branch of the gallons daily.

The Grand Canyon is a rock walled steep-sided gorge which crosses the high plateau of Northern Arizona. It is four hundred and eighty miles long, of which for a distance of two hundred miles it has an average, of ten miles and a depth of about one mile. At the ElTovar Hotel the canyon is about fourteen miles wide with a depth of six thousand feet from the rim on one side and nearly eight thoutwo to ten miles an hour, due to its band was to them. entire plateau took place resulting in ticle in the Globe. ations yet to come because the river Claywell herself. is still about two thousand feet above the level of the sea. There is also a constant disintergration and under-
